The FreeStore provides furniture to families in need. One item we are chronically short of is dressers. To remedy that, we have a program called, "Dressers for Kids." Our goal is to give every child, whose family uses the warehouse, a dresser. To that end, we have found a very nice 3-drawer dresser kit at IKEA that sells for \$60. We need corporations, businesses, churches, and social groups to bring this idea to fruition. In return you will invest not only in dressers for children but a great team-building project for your members.

Each dresser costs \$60 and takes a 2-person team from 2 to 3 hours to build. They can be built on site at your facility or in our warehouse.

For more information about this project that benefits kids and boosts employee morale, contact Harry Swanson 515-306-0420 or info@thefreestore.org.

Here is a picture of a finished 3-drawer dresser. **The cost, including transportation will be \$600 for each set of 10 dressers**
